

RUSTLICK EDM-30

Dielectric Oil

APPLICATIONS

- Has an allowable burn rate up to 150 amps.
- Should be used with paper cartridge filters.

MATERIALS COMPATIBILITY

- Good for all ferrous metals.
- Good for aluminum.
- Good for brass, bronze, and copper.

DILUTION RATIO

- All Rustlick EDM Fluids are used as received; do not dilute with any other materials.

HEALTH AND SAFETY

- Refer to MSDS (Material Safety Data Sheet) for complete information on health and safety.

PHYSICAL PROPERTIES

Appearance:	Clear to light yellow low viscosity fluid
Specific gravity:	0.82
Density:	6.85 lbs./gallon
Viscosity:	3.5 (104°F)
Total chlorine:	0.0%
Flash Point:	211°F
Boiling Point:	300°F
Petroleum distillates:	100.0%

AVAILABLE IN:

5 Gallon
55 Gallon
